

## CRITICAL THINKING CURRICULUM INFORMATION

### YEAR 12 & 13 (AS)

#### HO52 OCR Critical Thinking

This course introduces students to the concepts, principles and techniques which underlie critical thinking and expands their application to a range of contexts. The aim is to develop a number of thinking skills such as: understanding explanations; drawing inferences; developing reasoning; and assessing the credibility of sources. The AS course is taught over two years, with Unit 1 Introduction to Critical Thinking taken at the end of Year 12 and Unit 2 Assessing and Developing Argument at the end of Year 13.
