

Masterclasses 2012

During each school year we hold Masterclasses for talented girls from local primary schools. They particularly suit Year 5 and 6 pupils who have an interest and ability in their subjects and wish to explore their potential. The classes are primarily fun, but also help to develop confidence and prepare the girls for the move to secondary school. Masterclasses are free of charge.

The classes are on Saturday mornings from 10am-12pm, and over the year we will be offering:

- **Maths Masterclass: 4 February 2012 - Exploring the World of 3D Shapes**
- **Geography Masterclass: 24 March 2012 - Mud, Mud, Glorious Mud**
- **Science Masterclass: 26 May 2012 -TBC**
- **History Masterclass: 16 June 2012 - Good King Richard III or Dastardly Dick?**

We ask local primary head teachers to forward details of the Masterclasses to parents of gifted and talented children. Unfortunately we are unable to guarantee places for all of the children who apply as the courses are usually heavily oversubscribed.
