

Reception Class

Communication, Language and Literacy

Through the magic mirror! We will be looking at the unusual pictures in this book and then thinking of a sentence to write about what we have seen.

'Sounds and Words' book, this will be kept in your daughter's reading bag. Most weeks there will be letters to practice in our cursive script, together with words that join these letters. Once she has practised writing over individual letters please encourage and support your daughter to write them and words independently.

Maths

Butterfly symmetry: We will challenge ourselves to make symmetrical patterns using 2D shapes. We will also learn to use positional language, e.g. 'I am putting the circle next to the square.'

Cooking

Foundation and Reception will start cooking in small groups on Wednesday afternoons.

We will be making firework biscuits.

What can you see?

We will be looking at a variety of pictures with reflections and describing what we can see.
