

## Foundation Class

Our Cornerstones topic this half term is:

Do dragons exist?

Focus letter sound for the week is 'b'.

We will continue our phonics activities throughout the week. To reinforce the sound of the week 'b' we will be bathing babies and making bead bracelets.

Please could your daughter bring in one small item from home that begins with the sound, so that we can discuss and share it together in class during our phonics session on Monday.

Please help your daughter to learn the 'pure' letter sounds, e.g. 'a' apple or 'u' underwear. We noticed a few pictures in the Home Activity book this week that are not 'pure' sounds, e.g. 'u' unicorn or 'a' aeroplane. If you are unsure of the sound do please ask.

### Maths:

Focus: We will be going on a shape hunt. This will consolidate our work on describing the properties of 2D shape, such as 'corners' and 'sides'.

### Show and Tell

This will be on a Thursday morning. Please encourage your daughter to bring in an object, leaflet, photograph or picture that will help her to talk about her own experiences each week.

### Expressive art & design

Using a hoop and a variety of threads the girls will learn how to weave in a spider-type design.

### Technology

The girls will be exploring toys that have moving parts, such as cogs, flaps, buttons and levers. If your daughter has a toy that she would like to demonstrate to the class she is welcome to bring it in for Show and Tell.

### On-going
