

Reception Class Mathematics

Our focus this week is:

TIME COUNTING

TIME:

- We will be thinking about how we measure time in relation to our birthdays.
- We will be learning the days of the week and months of the year.
- We will use language associated with time:

next after before last day today tomorrow yesterday month year

eg "If today is Monday what will tomorrow/the next day be? Which month is my birthday month? What date is my birthday? How old will I be next birthday?"

We will be learning to say use the number names in order in familiar contexts e.g. number rhymes, songs, stories, counting games and activities.

We will be learning to count reliably up to 10 everyday objects, and beyond, giving just one number name to each object

We will be learning to recognise, order and record numerals to 10 and beyond – focussing on the formation of numeral 1.

We will be counting on from a given number and saying what is '1 more'.

Autumn 1ST half Week 1 8/9/2017
