

## Reception Class Mathematics

Our focus this week is:

**NUMBER  
&  
REVISION**

In a variety of practical and oral activities we will be focussing on addition and the formation of numerals.

### TIME

Learning the days of the week, months of the year and the language associated with time:

next after before last day today tomorrow yesterday month year

### MEASUREMENT, LENGTH, ORDERING & JUSTIFYING

LENGTH and the language of measurement:

measure, length, long, longer, longest, longer than,  
short, shorter, shortest, shorter than, the same length

### SHAPE, SPACE & MEASURES

#### 3D SHAPES

Recognising, naming and understanding of some of the basic properties of:

cube, cuboid, cone, sphere, cylinder

Mathematical language:

face, side, curved, straight, corner, same length

On-going: learning to say use the number names in order in familiar contexts e.g. number rhymes, songs, stories, counting games and activities.

On-going: learning to recognise, order and record numerals to 10 and beyond – focussing on the formation of the numeral **5**.

We will continue counting on from a given number and saying what is '1 more', or '2 more'.

ong: recognising and Sequencing the Days of the Week, Months of the Year and Seasons.
